

Universal Clip Rail

UNDER FLOOR HEATING

The Product

Our Universal Clip Rail accommodates pipe diameters up to 22mm.

Product Specification

JCW Universal Clip Rail is available in 1 metre lengths and features a peel off self-adhesive strip which is used to quickly and easily position and secure the Universal Clip Rail to the insulation.

Advantages

- Locking grips on the Universal Clip Rail hold the pipework firmly in position prior to screeding
- Self-adhesive strip makes positioning the Universal Clip Rail onto the insulation a simple process, helping reduce installation times
- An accurate, productive alternative to positioning and fixing pipework with Tacker Clips
- Universal Clip Rails are robust and reliable and resistant to crushing and breaking
- Integral "snap-on" tabs at the ends of the rails ensure they can be securely joined together to any final length requirement
