

Tacker Gun

UNDER FLOOR HEATING

The Product

This Tacker Gun device is used in a standing position to fix pipes in underfloor heating systems by efficiently driving the tacker clips into the insulating layer of Styrofoam.

Product Specification

- Robust construction Tacker Gun for fast application of tacker clips
- Accepts and works with various Tacker Clip sizes (40mm, 45mm or 60mm)
- Clip magazines are held together via a length of removable self-adhesive tape
- Please ensure that the adhesive strip is removed from the Tacker Clip cartridge prior to tacking down

Advantages

- Ergonomically designed and robust Tacker Gun. Highly reliable
- Features a comfortable handle which is sufficiently long to enable the operator to use in an upright position without excessive stress on back muscles
- Shortens pipe fixing installation time
